Solidez é a palavra que melhor descreve este radiador. Composta por elementos rectos, esta é a solução ideal para substituir os radiadores tradicionais ligados ao aquecimento central. Os elementos verticais são compostos por tubos 80 x 40 x 1,8 mm.

Solid is the word that best defines this radiator, not only because of its design but mostly because of its assembly procedure. Ideal to replace common radiators, giving added value to your living space. Its elements are made from 80 x 40 x 1,8 mm tubes.
